

Aipu

APMA series Mud agitators

APMA Series mud agitator

◆ -Application

Agitate or mix drilling fluid efficiently in drilling mud process system for various well drilling. Including onshore and offshore O&G drilling and so on

◆ -Result

Maintain high mud property and keep proper ratio between solid and liquids by preventing solids precipitating

The features and benefits

- ⊙ Stable performance
- ⊙ Reliable material with durable quality
- ⊙ Little spare parts cost
- ⊙ Easy operation with less maintenance
- ⊙ Strict and exquisite painting finishing process
- ⊙ More flexibility on customization of shaft and impellers

APMA Series mud agitator

• *Standard specifications*

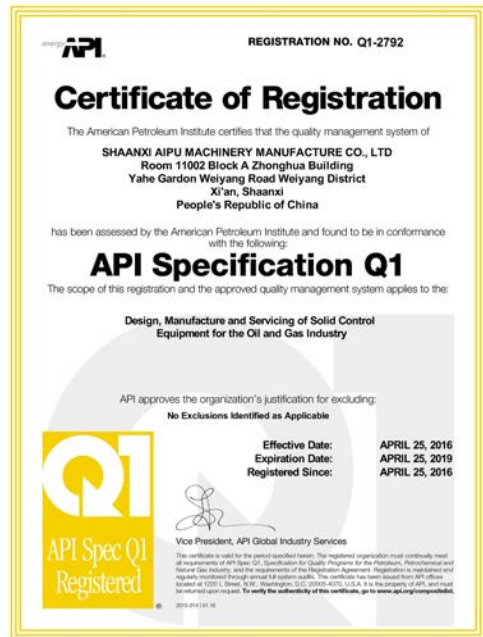

Model	APMA5.5	APMA7.5	APMA11	APMA15
Motor	5.5KW (7.5hp)	7.5KW (10hp)	11KW (15hp)	15KW (20hp)
Speed	60/72rpm			
Impeller	850mm	950mm	1050mm	1100mm
Double impeller	N/A	800mm x 2	850mm x 2	950mm x 2
Ratio	20:1 or 25:1			
Dim. Less shaft & impeller	1070x610x590 mm	1160x680x610 mm	1300x690x610 mm	1470x890x750 mm
Weight Less shaft & impeller	230kg	335kg	495kg	550
Shaft	According to tank internal height or level height			
Electrical system	380V/50HZ, 460V/60HZ, customizable			
Remark	Shaft stabilizer optional for certain length shaft ; Bevel gear box available; Vertical type agitator is available			

• *More options*

- ⊙ Vertical or horizontal type
- ⊙ Customization on shaft, impeller, and configuration
- ⊙ Optional shaft and impeller material-S.S304~316L
- ⊙ Surface paint 

Professional solids control equipment manufacturer

Shaanxi Aipu Machinery Manufacture Co., Ltd

Add: 4th Jingyuan Rd Jinghe Industry Zone, Xi'an, China
